CHMP meeting of 17-20 September 2012

Name	INN	Type of procedure	Scope
Protamine	protamine	Article 5(3) of Regulation (EC) 726/2004	Procedure triggered by EMA asking for a scientific opinion whether the variability currently observed in the protamine as active substance due to the different sources of the natural raw material has any consequence on the overall quality of the products where it is used and issue any recommendations that may be relevant to address the situation.
